Introduction

The FPM-5000G series provides 15", 17" and 19" color TFT LCD with LED backlight and fl panel monitors that are specifi designed for industrial applications. With LCD size from 15" to 19", they present ample display areas as well as vivid and sharp images. It features Direct-VGA & DVI-D signal transmission, which allows VGA control cards to be used in your system. The onscreen display allows users to adjust the images on the screen with two user-defi settings. The front accessible USB connector provides easy access to the controller, and the industrial 10-30 V_{DC} wide range power support makes this product an excellent option for Factory and Machine Automation display solutions.
